Forward-Looking Statements

Various statements in this announcement, including those that express a belief, expectation, or intention, as well as those that are not statements of historical fact, are forward-looking statements. The forward-looking statements may include projections and estimates concerning the timing and success of specific projects and our future production, revenue, income and capital spending. Our forward-looking statements are generally accompanied by words such as "estimate," "project," "predict," "believe," "expect," "anticipate," "potential," "plan," "goal" or other words that convey the uncertainty of future events or outcomes. The forward-looking statements in this announcement speak only as of the date of this announcement; we disclaim any obligation to update these statements (unless required by securities laws), and we caution you not to rely on them unduly. We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. These risks, contingencies and uncertainties include, but are not limited to, significant variations in our operating results from quarter to quarter, the competitive and cyclical nature of our industry, our ability to realize and profit from our backlog, the implementation of the Energy Policy Act of 2005 by our customers, our ability to obtain new contracts and/or replace completed or cancelled contracts, our ability to obtain adequate bonding for our projects, our ability to hire and retain key personnel and subcontractors, limitations on our internal infrastructure, the limited market for our common stock, and material weakness in our internal controls over financial reporting that have been identified by management.
