

## MYR Group Inc. Announces Second-Quarter and First-Half 2021 Results

July 28, 2021

HENDERSON, Colo., July 28, 2021 (GLOBE NEWSWIRE) -- **MYR Group Inc. ("MYR") (NASDAQ: MYRG)**, a holding company of leading specialty contractors serving the electric utility infrastructure, commercial and industrial construction markets in the United States and western Canada, today announced its second-quarter and first-half 2021 financial results.

### Highlights for Second Quarter 2021

- Record high quarterly revenues of \$649.6 million
- Record high quarterly net income of \$21.2 million, or \$1.24 per diluted share
- Record high quarterly EBITDA of \$41.2 million
- Strong backlog of \$1.57 billion

### Management Comments

Rick Swartz, MYR's President and CEO, said, "Our strong second-quarter 2021 financial results included record high quarterly revenue, net income, EBITDA and EPS. We finished the second quarter with net income of \$21.2 million, a 58.5 percent increase over our second quarter 2020 net income, along with increases in revenues, gross profit and EBITDA as compared to the same period of 2020." Mr. Swartz continued, "A number of important market drivers continue to provide MYR with future growth opportunities including grid modernization, electrification and clean energy. We are focused on implementing targeted strategies to expand customer relationships, develop innovative practices, and capture market opportunities. Our ability to leverage the full capabilities of MYR Group companies across geographies and markets uniquely positions us for continued success."

### Second Quarter Results

MYR reported second-quarter 2021 revenues of \$649.6 million, an increase of \$136.5 million, or 26.6 percent, compared to the second quarter of 2020. Specifically, our Transmission and Distribution ("T&D") segment reported revenues of \$326.8 million for the second quarter of 2021, an increase of \$50.0 million, or 18.1 percent, from the second quarter of 2020, primarily due to an increase in revenue on two large-sized projects associated with accelerated schedule requirements at the beginning of a project and battery delivery and installation at the close-out of another. Our Commercial and Industrial ("C&I") segment reported revenues of \$322.7 million for the second quarter of 2021, an increase of \$86.4 million, or 36.6 percent, from the second quarter of 2020, primarily due to an increase in revenue on various-sized projects and accelerated schedules on two projects. Additionally, revenues during the second-quarter 2020 were negatively impacted by a slight slowdown of C&I work in certain geographic areas related to the COVID-19 pandemic.

Consolidated gross profit increased to \$81.0 million in the second quarter of 2021, an increase of \$19.7 million or 32.2 percent, from the second quarter of 2020. The increase in gross profit was due to higher revenues and margins. Gross margin was 12.5 percent for the second quarter of 2021 compared to 11.9 percent for the second quarter of 2020. The increase in gross margin was primarily due to better-than-anticipated productivity on certain projects and favorable job close-outs, partially offset by labor and equipment inefficiencies on certain projects. Changes in estimates of gross profit on certain projects resulted in a gross margin increases of 0.8 percent and 0.2 percent for the second quarters of 2021 and 2020, respectively.

Selling, general and administrative expenses ("SG&A") increased to \$51.9 million in the second quarter of 2021, compared to \$41.2 million for the second quarter of 2020. The period-over-period increase was primarily due to higher employee incentive compensation costs and contingent compensation expense related to prior acquisitions.

Income tax expense was \$7.9 million for the second quarter of 2021, with an effective tax rate of 27.0 percent, compared to income tax expense of \$5.0 million for the second quarter of 2020, with an effective tax rate of 27.1 percent. The period-over-period decrease in tax rate was primarily due to a favorable impact from stock compensation excess tax benefits, partially offset by excess tax expense pertaining to the impact of global intangible low tax income ("GILTI").

For the second quarter of 2021, net income was \$21.2 million, or \$1.24 per diluted share, compared to \$13.4 million, or \$0.80 per diluted share, for the same period of 2020. Second-quarter 2021 EBITDA, a non-GAAP financial measure, was \$41.2 million, compared to \$31.5 million in the second quarter of 2020.

### First-Half Results

MYR reported first-half 2021 revenues of \$1.24 billion, an increase of \$210.6 million, or 20.4 percent, compared to the first half of 2020. Specifically, the T&D segment reported revenues of \$641.7 million, an increase of \$105.7 million, or 19.7 percent, from the first half of 2020, primarily due to an increase in revenue on large-sized projects. The C&I segment reported revenues of \$600.3 million, an increase of \$104.8 million, or 21.2 percent from the first half of 2020, primarily due to an increase in revenues on various-sized projects. Additionally, revenues during the first half of 2020 were negatively impacted by a slight slowdown of work in certain geographic areas related to the COVID-19 pandemic.

Consolidated gross profit increased to \$158.0 million in the first half of 2021, an increase of \$35.1 million or 28.5 percent, from the first half of 2020. The increase in gross profit was due to higher revenues and margins. Gross margin was 12.7 percent for the first half of 2021 compared to 11.9 percent for the first half of 2020. The increase in gross margin was primarily due to better-than-anticipated productivity on certain projects and favorable job close-outs. These improvements were partially offset by labor and equipment inefficiencies on certain projects, unfavorable pending change order adjustments on certain projects and inclement weather experienced on a project. Changes in estimates of gross profit on certain projects resulted in gross margin increase of 0.3 percent and decrease of 0.1 percent for the first half of 2021 and 2020, respectively.

SG&A increased to \$101.5 million in the first half of 2021, compared to \$86.2 million for the first half of 2020. The period-over-period increase was

primarily due to higher employee incentive compensation costs and contingent compensation expense related to prior acquisitions.

Income tax expense was \$14.9 million for the first half of 2021, with an effective tax rate of 26.6 percent, compared to income tax expense of \$9.0 million for the first half of 2020, with an effective tax rate of 27.9 percent. The period-over-period decrease in tax rate was primarily due to a favorable impact from stock compensation excess tax benefits, partially offset by excess tax expense pertaining to the impact of GILTI.

For the first half of 2021, net income was \$41.1 million, or \$2.41 per diluted share, compared to \$23.3 million, or \$1.39 per diluted share, for the same period of 2020.

#### **Backlog**

As of June 30, 2021, MYR's backlog was \$1.57 billion, compared to \$1.64 billion as of March 31, 2021. As of June 30, 2021, T&D backlog was \$635.1 million, and C&I backlog was \$931.6 million. Total backlog at June 30, 2021 increased \$20.0 million, or 1.2 percent, from the \$1.55 billion reported at June 30, 2020.

#### **Balance Sheet**

As of June 30, 2021, MYR had \$362.7 million of borrowing availability under its \$375 million revolving credit facility.

#### **Non-GAAP Financial Measures**

To supplement MYR's financial statements presented in accordance with generally accepted accounting principles in the United States ("GAAP"), MYR uses certain non-GAAP measures. Reconciliation to the nearest GAAP measures of all non-GAAP measures included in this press release can be found at the end of this release. MYR's definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with GAAP.

MYR believes that these non-GAAP measures are useful because they (i) provide both management and investors meaningful supplemental information regarding financial performance by excluding certain expenses and benefits that may not be indicative of recurring core business operating results, (ii) permit investors to view MYR's performance using the same tools that management uses to evaluate MYR's past performance, reportable business segments and prospects for future performance, (iii) publicly disclose results that are relevant to financial covenants included in MYR's credit facility and (iv) otherwise provide supplemental information that may be useful to investors in evaluating MYR.

#### **Conference Call**

MYR will host a conference call to discuss its second-quarter 2021 results on Thursday, July 29, 2021 at 8:00 a.m. Mountain time. To participate in the conference call via telephone, please dial (877) 561-2750 (domestic) or (763) 416-8565 (international) and enter conference ID 6175534, at least five minutes prior to the start of the event. A replay of the conference call will be available through Thursday, August 5, 2021, at 11:00 a.m. Mountain time, by dialing (855) 859-2056 or (404) 537-3406 and entering conference ID 6175534. MYR will also broadcast the conference call live via the internet. Interested parties may access the webcast through the Investor Relations section of MYR's website at [www.myrgroup.com](http://www.myrgroup.com). Please access the website at least 15 minutes prior to the start of the call to register, download and install any necessary audio software. The webcast will be available until Thursday, August 5, 2021 at 11:00 a.m. Mountain time.

#### **About MYR**

MYR is a holding company of leading specialty contractors serving the electric utility infrastructure, commercial and industrial construction markets throughout the United States and western Canada who have the experience and expertise to complete electrical installations of any type and size. Their comprehensive services on electric transmission and distribution networks and substation facilities include design, engineering, procurement, construction, upgrade, maintenance and repair services. Transmission and distribution customers include investor-owned utilities, cooperatives, private developers, government-funded utilities, independent power producers, independent transmission companies, industrial facility owners and other contractors. Commercial and industrial electrical contracting services are provided to general contractors, commercial and industrial facility owners, local governments and developers generally throughout the United States and western Canada. For more information, visit [myrgroup.com](http://myrgroup.com).

#### **Forward-Looking Statements**

*Various statements in this announcement, including those that express a belief, expectation, or intention, as well as those that are not statements of historical fact, are forward-looking statements. The forward-looking statements may include projections and estimates concerning the timing and success of specific projects and our future production, revenue, income, capital spending, segment improvements and investments. Forward-looking statements are generally accompanied by words such as "anticipate," "believe," "estimate," "expect," "intend," "likely," "may," "objective," "outlook," "plan," "project," "possible," "potential," "should," "unlikely," or other words that convey the uncertainty of future events or outcomes. The forward-looking statements in this announcement speak only as of the date of this announcement. We disclaim any obligation to update these statements (unless required by securities laws), and we caution you not to rely on them unduly. We have based these forward-looking statements on our current expectations and assumptions about future events. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties, most of which are difficult to predict and many of which are beyond our control. No forward-looking statement can be guaranteed and actual results may differ materially from those projected. Forward-looking statements in this announcement should be evaluated together with the many uncertainties that affect MYR's business, particularly those mentioned in the risk factors and cautionary statements in Item 1A. of MYR's Annual Report on Form 10-K for the fiscal year ended December 31, 2020, and in any risk factors or cautionary statements contained in MYR's subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K.*

Less: cash and cash equivalents		(68,322)		(9,991)		(4,355)
<b>Invested Capital (17)</b>	<b>\$</b>	<b>412,088</b>	<b>\$</b>	<b>461,423</b>	<b>\$</b>	<b>441,163</b>

See notes at the end of this earnings release.

- (1) Last-twelve-months earnings per share is the sum of earnings per share reported in the last four quarters.
- (2) Last-twelve-months weighted average basic and diluted shares were determined by adding the weighted average shares reported for the last four quarters and dividing by four.
- (3) Funded debt includes outstanding borrowings under our revolving credit facility and our outstanding equipment notes.
- (4) These financial performance measures are provided as supplemental information to the financial statements. These measures are used by management to evaluate our past performance, our prospects for future performance and our ability to comply with certain material covenants as defined within our credit agreement, and to compare our results with those of our peers. In addition, we believe that certain of the measures, such as book value, tangible book value, free cash flow, asset turnover, return on equity, and debt leverage are measures that are monitored by sureties, lenders, lessors, suppliers and certain investors. Our calculation of each measure is described in the following notes; our calculation may not be the same as the calculations made by other companies.
- (5) EBI, net of taxes is defined as net income plus net interest, less the tax impact of net interest. The tax impact of net interest is computed by multiplying net interest by the effective tax rate. Management uses EBI, net of taxes, to measure our results exclusive of the impact of financing costs.
- (6) EBITDA is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is not recognized under GAAP and does not purport to be an alternative to net income as a measure of operating performance or to net cash flows provided by operating activities as a measure of liquidity. Certain material covenants contained within our credit agreement are based on EBITDA with certain additional adjustments, including our interest coverage ratio and leverage ratio, which we must comply with to avoid potential immediate repayment of amounts borrowed or additional fees to seek relief from our lenders. In addition, management considers EBITDA a useful measure because it provides MYR Group Inc. and its investors with an additional tool to compare our operating performance on a consistent basis by removing the impact of certain items that management believes to not directly reflect the company's core operations. Management further believes that EBITDA is useful to investors and other external users of our financial statements in evaluating the company's operating performance and cash flow because EBITDA is widely used by investors to measure a company's operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, useful lives placed on assets, capital structure and the method by which assets were acquired.
- (7) EBITDA per diluted share is calculated by dividing EBITDA by the weighted average number of diluted shares outstanding for the period. EBITDA per diluted share is not recognized under GAAP and does not purport to be an alternative to income per diluted share.
- (8) Free cash flow, which is defined as cash flow provided by operating activities minus cash flow used in purchasing property and equipment, is not recognized under GAAP and does not purport to be an alternative to net income, cash flow from operations or the change in cash on the balance sheet. Management views free cash flow as a measure of operational performance, liquidity and financial health.
- (9) Book value per period end share is calculated by dividing total stockholders' equity at the end of the period by the period end shares outstanding.
- (10) Tangible book value is calculated by subtracting goodwill and intangible assets outstanding at the end of the period from stockholders' equity. Tangible book value is not recognized under GAAP and does not purport to be an alternative to book value or stockholders' equity.
- (11) Tangible book value per period end share is calculated by dividing tangible book value at the end of the period by the period end number of shares outstanding. Tangible book value per period end share is not recognized under GAAP and does not purport to be an alternative to income per diluted share.
- (12) The funded debt to equity ratio is calculated by dividing total funded debt at the end of the period by total stockholders' equity at the end of the period.
- (13) Asset turnover is calculated by dividing the current period revenue by total assets at the beginning of the period.
- (14) Return on assets is calculated by dividing net income for the period by total assets at the beginning of the period.
- (15) Return on equity is calculated by dividing net income for the period by total stockholders' equity at the beginning of the period.
- (16) Period end shares is calculated by adding average common stock equivalents for the quarter to the period end balance of common stock outstanding. Period end shares is not recognized under GAAP and does not purport to be an alternative to diluted shares. Management views period end shares as a better measure of shares outstanding as of the end of the period.
- (17) Invested capital is calculated by adding net funded debt (total funded debt less cash and marketable securities) to total stockholders' equity.
- (18) Return on invested capital is calculated by dividing EBI, net of taxes, less any dividends, by invested capital at the beginning of the period. Return on invested capital is not recognized under GAAP, and is a key metric used by management to determine our executive compensation.
